

LIFELESS

Lifeless is how I feel
Alone in the forest of my mind I cannot heal
Thoughts attack me like a machine gun
I feel as though I have to run
But I can't, my mind will not let me be
Even finding love is a challenge for me
But there is always hope even when morale is gone
Like a ray from the most golden sun
I will always fight no matter what
Even if my mind will never wash
Lifeless is how I feel
